

Open Email Relay Info

Avaya IP Office Partner/Basic/Quick Mode

Ping this URL - relay.appriver.com

Use the static IP it returns.

Set your port to 2525

**Set the outbound email address to anything of your choice
works 100% of the time**

This is what the Ping should return:

SMTP is 207.97.230.34

IP Office Partner/Basic/Quick Mode:

SMTP Server Configuration

Server Address: 207.97.230.34

Email From Address:

Port: 2525

☐ Server Requires Authentication

User Name:

Password:

☒ Use Challenge Response Authentication

**You must put a valid
Email Address in here...**

**Also, make sure that you have a valid LAN IP Address set in the System Setup.
192.168.42.1 will not allow email to work.**

This is just an **example of a valid LAN IP Address**

Receive IP Address Via DHCP Server	<input type="checkbox"/>
IP Address (LAN1)	192 . 168 . 1 . 11
Sub-Net Mask (LAN1)	255 . 255 . 255 . 0
Default Gateway	192 . 168 . 111 . 1
DNS Server IP Address	8 . 8 . 8 . 8
Backup DNS Server IP Address	8 . 8 . 4 . 4
