Using a 1400 Type Phone for System Programming

Telquest Tech Support

You can us this method to program the system with a 1408 or 1416 phone.

You can not talk on the phone when programming.

This must be done from Ext 10 or Ext 11

Leave the handset in the cradle

Press the Softkey under the LCD word   Admin

Use the Up and Down Arrows on the navigation disc to select the Access Type" desired

Press the OK button in the center of the navigation disc when you have made your choice

Dial # (POUND) followed by the Code that represents the Setting you want to change

Use the keypad to enter your choices

Note: in most cases 1, 2, 3 and 4 on the keypad will be used to make selections

When you have made your selection, press the OK button to save it

Press the PHONE?EXIT button to end programming
