

## Avaya IP Office Identify ATM Card Version Telquest Tech Support

The new PCS07 IP500 ATM4 Combo card and PCS10 ATM4U Daughter card require a minimum software level for the card to be recognized in an IP500 system.

The IP Office must be running a minimum software level of 6.1(20) or 7.0(12).

The Combo Card and ATM4U Daughter card will not function with earlier releases of IP Office software.

The new PCS07 IP500 ATM Combo Card can be identified by the label on the box:

Link to Avaya 7.0(12) Manager Software used to upgrade the KSU.
