System Restart/Reboot Issues Addressed in release 9.0.4 (965)

Telquest Tech Support

Release 9.0.4 (965) addressed these System Restart/Reboot issues:

System Restart - calls to a busy/logged off user or group without queuing/overflow/voicemail enabled

System Restart - Held calls and Bridged Appearances configured on second page of buttons for 9608

System Restart SE/500/500v2 – Call transfer scenario

System Restart - Self Administer > “Abbreviated Dial” on a 1616 IP telephone

System Restart - system restarts when picking up a parked SIP call on 1608L telephone
