

Avaya IP Office Standard Mode Short Code to Test Auto Attendant Telquest Tech Support

The Telephone Number must have the Quotation Marks.

Format is “AA:(followed by the name of the Auto Attendant)”

My Auto attendants name is AA1

So, I use “AA:AA1” for the Telephone Number.

You can make the Short Code anything you like as long as it is not used already.

I dial *98 and I get the Greeting for AA1.

The screenshot shows a configuration window titled "*98: Auto Attendant". It contains several fields for configuring the auto attendant:
