

Panasonic KX-NS700 Back Up the DFSYS File to a Computer Telquest Tech Support

The programming for the NS700 is saved in the DFSYS file on the SD Card.

You can Transfer the DFSYS file from the SD Card to your computer.

The Transfer does not remove it from the KSU.

You can then Transfer the saved DFSYS file to another KSU.

Here we will Transfer the DFSYS file to your computer:

1. Click here...

6. Click here...

Page 2

You will see something like this:	Note: The correct File
Opening DFSYS	
You have chosen to open:	
L DFSYS	
which is: application/force-download (104 KB) from: http://192.168.111.201	
What should Waterfox do with this file?	
Open with Browse	
Save File Save Fi	
☐ Do this <u>a</u> utomatically for files like this from now on.	7. Click here
OK Cancel	

I am using Windows 10 with the Waterfox/Firefox browser to program my NS700.

If you use a different operating system and or browser, you may see a different screen. If so, it will be up to you to determine how and where to access the saved DFSYS file.

Firefox Browser Download Area

Now you can save the DFSYS file to any location of your choice on your computer.

Sending the DFSYS file to Another NS700 KSU

Go to the area where the DFSYS file is saved in your computer.

Page 4

Page 5

You will see this...

The system will be restarted by this operation.

Do you want to restart the system?

OK Cancel

4. Click here...

Then this...

At this point the KSU will start to accept the saved DFSYS file.

It will be OUT OF SERVICE for several minutes depending on how big the DFSYS file is.

Mine took about 5 minutes.

When the KSU comes back into service, you should see it programmed with all the settings that were in the DFSYS file.
