12	Voice Mail Transfer		500		12	
13	Single CO	13 :			13	Ring Tone Type
14	Single CO	14 :			14	Ring Tone Type

**In this example, I have assigned Voice Mail Transfer to button12 on Extension 102.**

**This button serves 2 purposes.**

**It can be used to Transfer a caller directly to another Extensions Mail Box.**

**It can also be used as a Call Reject button by pressing it when a call comes to your Extension and you do not want to answer the call.**

**Pressing it at that time will send the caller directly to your Voice Mail Box.**
