I am using a Panasonic KX-TCA185 DECT Cordless Handset.

Your screens may be different if you use a different Panasonic DECT Cordless Handset.

Be sure the DECT Cordless Handset is fully charged.

Press and hold down the **Red Handset Button** for about 5 seconds and the Handset will turn on.

It will say **“No Service”** in the display.
Press the **“Menu”** Button.
Scroll down to the **“Wrench Icon”**.
The display will say **“Setting Handset”**.
Press the **“OK”** button.
Scroll down and select **“System Option”**.
Press the **“OK”** button.
Select **“Register H/S”**.
Press the **“OK”** button.
“Base 2” be will selected for you. (or a different one)
Press the **“OK”** button.
The Handset should register in less than 10 seconds.
The **Time and Date** will appear in the display.

This will change to **“Registration Complete”** when the Handset is registered to the KX-NS0154 DECT Base Unit.
