

Panasonic NS-700 AA Delayed Answer Time Telquest Tech Support

You can add additional time until the Auto Attendant answers a call.

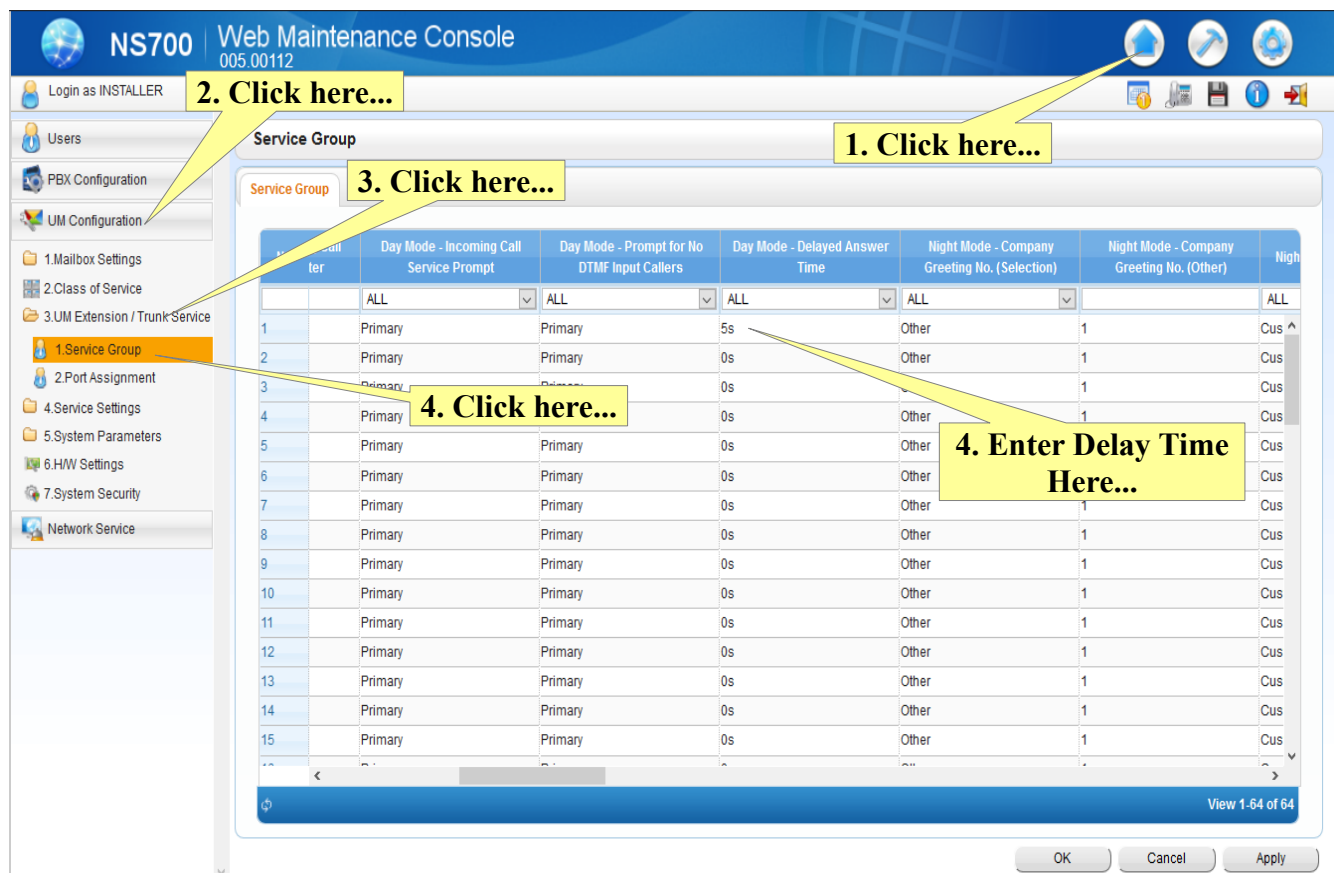

Note:

Adding additional delay time here will also add additional delay time to extension when they call into their mailbox.

In the example below, I have added a 5 second delay until the Day Mode Auto Attendant answers.

There are also Delayed Answer Times for Night, Lunch and Break Modes.

There is a Drop Down for the Delayed Answer Timer. (See Page 2)
