

Panasonic NS 700

Set The Amount Of Time Until A Call To An Extension Goes To Voice Mail

Telquest Tech Support

This is no longer done in the System Programming.

It is now done by the User on their phone.

Press the Softkey below the word **PROG** that appears in the LCD.

Dial 53

Press the Softkey below the word **ENTER** that appears in the LCD.

Enter the amount of time (3 digits) the phone will ring before the call goes to its Voice Mail.
Example: 009 = 9 seconds, 015 = 15 seconds, 100 = 100 seconds.

Press the Softkey below the word **ENTER** that appears in the LCD.

Press the Softkey below the word **EXIT** that appears in the LCD.
