

**Panasonic NS-700
Get to the Wizard
Telquest Tech Support**

Turn OFF the power to the KSU

Place the switch on the front of the KSU to “System Initialize”

Turn ON the power to the KSU

When the “Status” LED starts flashing, place the switch in the “Normal” position.

It may take up to 3 or 4 minutes (maybe more) for the system to come up.

When it does come up, connect to the KSU (192.168.0.101) via a web browser.

Panasonic suggests that you NOT use Internet Explorer.

You should then see the Wizard.

Your Registration and any Application Keys (Licenses) will stay OK.
