KX-TPA65 DESKTOP DECT PHONE

Compatible with the KX-TGP600 SIP cordless phone system, the KX-TPA65 desktop DECT phone offers a significant advantage over traditional desk phones. While it features the same range of desktop functionality as its wired competitors, the phone's DECT capabilities mean no wired LAN is required for installation, making the process quick, convenient and straightforward anywhere there's an electrical outlet nearby.

In addition to the KX-TPA60 standard cordless phone already included with the KX-TGP600 system, the KX-TPA65 desktop DECT phone can work alongside any combination of up to seven additional Panasonic cordless or desktop DECT phones.*
