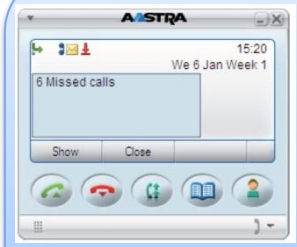
# Plantronics Headset Compatibility

Please select the brand of phone you are trying to use with your Plantronics headset below:

# Softphone Compatibility



**Aastra 2380ip**
Softphone brings the telephone to the PC and is thus the perfect solution for employees who work from a home office or who are travelling

**Aastra 400**
offers an all-in-one Unified & Collaborative Communication s solution which is seamlessly integrated into the system.

**The Aastra BluStar™** Ecosystem provides businesses with a comprehensive, end-to-end Unified Communication (UC) solution with a versatile choice of clients and devices.

**MX-ONE** solution can be deployed in a centralized or distributed fashion, for one system or a multiple networked system across hundreds of geographically dispersed locations

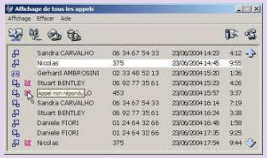
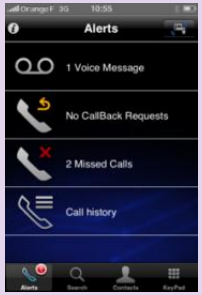
# Softphone Compatibility

Alcatel·Lucent



**PIMPhony** is a phone system that operates directly on a user's PC, transforming the PC into an IP terminal, and is particularly cost-effective for remote and mobile workers.

**IP DESKPHONE** is a Windows/MAC application installed on a user's computer, emulating a 4068, 4038 or 4028 IP Touch phone.



**OmniTouch 8600 My Instant Communicator** Is multi-media, multi-session, multi-device unified communications client solution that can be integrated with existing business applications and accessed seamlessly from a computer, IP phone or PDA

**4980 Softphone** is a next-generation PC telephony application that manages communications and information by linking the desktop PC and the telephone. It seamlessly integrates with most popular workgroup applications.

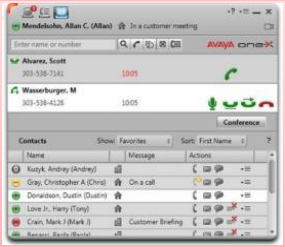
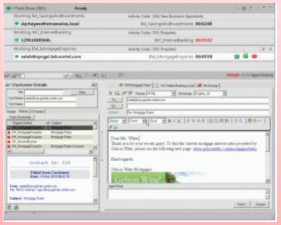
# Softphone Compatibility



**Avaya one-X® Communicator**
combines soft phone, intelligent presence, voice/video calling, visual voicemail and video conferencing, together with access to corporate directories and call logs, to help users better manage communication tasks.

**Avaya one-X® Agent**
Is designed to meet the needs of Contact Center Agents by providing one-touch access to functions such as conference, transfer, supervisor assist, pre-recorded greetings, integrated presence and instant messaging.



**Avaya Aura Agent Desktop**
allows agents
to simultaneously handle multiple contacts of various media types

**IP Softphone** is a full installer, as such it can be installed as an upgrade to any IP Softphone R6 series release

## Blackwire 300

**The best-featured UC headset you never thought your budget could afford**

Lightweight metal headband offers durability and a customizable, comfortable fit

- Intuitive inline controls to answer/end calls, control volume, and mute
- Smartly placed indicator lights and helpful audio alerts give call, mute, and volume status
- Dynamic EQ feature automatically adjusts audio for voice or multimedia use
- Noise-canceling microphone filters out background sound
- Enhanced Digital Signal Processing (DSP) provides a more natural sounding voice
- Wideband audio with noise cancelling for high quality PC telephony
- SoundGuard® technology provides protection against audio spikes

## Blackwire 435

**Enjoy crystal-clear PC audio anywhere work happens**

- Folds flat for easy mobility
- A soft travel carrying case which provides extra protection and cord management
- Noise-cancelling microphone limits outside noise interruptions, ensuring excellent audio quality and easing listener fatigue
- Echo cancellation for full-duplex speakerphones when both the microphone and speaker are on at the same time
- Hi-Fi audio with stereo sound optimises music and video quality
- Wideband microphone provides the best PC audio telephony available
- Microphone, soft ear cushions, and a soft head-band adjusts for perfect fit and extended wear
- Total-focus sound reduction in a binaural design
- SoundGuard™ protects against instantaneous sound spikes above 118dBA

## Blackwire 500 Series

**Ideal for all-day use, long conference calls, and listening to multi-media**

- Smart Sensor™ technology lets you answer a call by simply putting on the headset
- One-touch call answer/end, vol +/-, and mute
- Inline indicator lights and user friendly audio alerts the user to connection, mute and volume status
- Dynamic EQ automatically adjusts audio settings between voice calls and music
- PC wideband audio with noise-canceling microphones for high-quality PC telephony
- Digital Signal Processing (DSP) provides natural voice sound
- SoundGuard® technology provides protection against audio spikes
- Ultra-soft leatherette ear cushions and lightweight headband provide all day comfort
- Take it on the go, with folding ear cushions and included carrying case

# Audio processors & UC Enabler

**Vista™ M22™**

**Better sound quality and enhanced intelligibility**

- Maintains volume – at the user chosen level regardless of incoming call volume
- Outbound noise reduction – enhances the performance of all Plantronics headsets to reduce the background noise a caller hears
- Incoming noise reduction – lowers incoming noise to enhance the agents listening comfort

**VistaPlus™ AP15 / DM15 / M15D**

**Digital Audio Processor for complete protection against acoustic incidents**

- SoundGuard Digital™ provides acoustic incident protection by removing sudden, loud sounds, and controlling daily personal noise exposure to comply with legislation (DM15 only)
- CallClarity Digital™ delivers optimum sound quality, including automatic volume leveller (DM15 only)
- Volume, mute and tone controls, with headset/handset switch
- Compatible with all major business phone systems

**DA series DA40™, DA45™, DA55™ (not pictured) or DA60™**

**Harness the power of Unified Communications**

- Works with all Plantronics H-series headsets to provide quality audio, reliability, and a choice of wearing styles
- Echo suppression ensures natural conversation even with VoIP latency (DA45 only)
- Enables easy call answer/end feature on most softphones, via Plantronics software (DA45 only)
- Enhances contact centre agent experience via Plantronics software (DA60 only)

**UC Enabler MDA200**

**Designed to solve the communications challenges of businesses migrating to Unified Communications, the MDA200™ makes it easy to manage PC voice and multi-media, while maintaining connectivity to your desk phone.**

- Allows the choice of one corded or wireless USB headset for users in the office or on-the-go
- Simple user interface to easily answer, end, hold and switch between desk phone and PC calls
- Supports remote call control with Plantronics corded and wireless USB headsets
- Manage calls from PC, desk phone and even a mobile phone when used with Bluetooth USB headsets (like Voyager™ PRO UC)
- Compatible with Plantronics corded desk phone headsets when used with a USB adapter
